HYUNDAI

i30 N Line

The beauty of powerful details.

The new i30 N Line Hatchback.

With its sleek, sculpted presence, refined surfaces and precise lines – the new i30 thrills from every angle. And now you can take it to an even sportier level with eye-catching design elements inspired by the high performance i30 N. Completely revamped for an even sportier look, the i30 N Line's bold new design bristles with powerful details. In the front, new LED headlamps and V-shaped Daytime Running Lights catch the eye from a distance, flowing gracefully into the muscular new grille. Inspired by aeronautic jet design, the unique black grille is now wider and bolder – and together with the new bumper, emphasizes the i30 N Line's strong stance and performance credentials. The dynamic side air intakes feature floating wings which have been specially designed to improve aerodynamic performance.

The sportier side of style.

Sleek and powerful, the new i30 N Line's bolder, refreshed exterior design includes a completely re-designed rear bumper, which further emphasizes the dynamic N Line character. The wide diffuser, twin chrome exhaust pipes and new silver highlight line combine to make a strong statement and give the rear an impressive motorsport stance. The rear fog lights have also been repositioned to focus the visual centre of gravity closer to the ground for a sportier flair. And when it comes to the wheels, two all-new 17" or 18" versions highlight the N Line's strong motorsport roots.

Design highlights.

Wider and bolder black grille.

Sleek new full LED headlamps and integrated V-shaped Daytime Running Lights.

Twin chrome exhaust pipes.

Get into a new level of sportiness.

The N Line interior.

Get inside the new i30 N Line's upgraded cockpit with its exclusive extras and red contrast stitching – and you'll feel its motor sport roots instantly. The stylish N Line steering wheel is finished in fine leather with perforated leather grip zones for more comfort and control. The sporty N Line seats feature the N logo on the headrests and are available in full cloth or a suede / leather combination. The N Line gearshift features sporty metal accents, a red racing line and leather inserts for better grip and more motorsport feeling.

Wireless charging
The wireless charging tray conveniently located in the centre console lets you easily charge a compatible Qi-enabled smartphone without the hassle of having to plug it in.

Hyundai SmartSense.

The new i30 now also features an improved Hyundai SmartSense package – our cutting-edge Advanced Driver Assistance Systems – built to provide you with more safety and peace of mind. Combining front and rear radar with a multifunction camera, the active safety offering has been updated to include Lane Following Assist, and Blind Spot Collision-avoidance Assist. Rear Cross-traffic Collision-avoidance Assist is also available for the first time. When reversing out of areas with low visibility, like in parking lots, the system warns you if vehicles approach from the side – and also automatically applies the brakes.

Forward Collision-avoidance Assist (FCA).
Sensing the road ahead with radar and a camera, FCA warns you and then automatically brakes when it detects sudden braking by a car ahead. The system also detects pedestrians and cyclists.

High Beam Assist (HBA).
Less stress and maximum visibility. HBA not only detects oncoming vehicles but also vehicles in the same lane ahead and switches to low-beam as appropriate.

Lane Keeping Assist (LKA).
Uses the front camera to monitor the lines of the road. In case of an unintended lane departure, it will warn the driver and can apply counter steering torque to guide the car back to the lane.

Rear Cross-traffic Collision-avoidance Assist (RCCA).
When reversing out of areas with low visibility, the system not only warns the driver if vehicles approach from the side – it also applies the brakes automatically.

Lane Following Assist (LFA).
When activated, it keeps the vehicle centred in its lane at speeds between 0 and 180 kilometres per hour on highways and city streets.

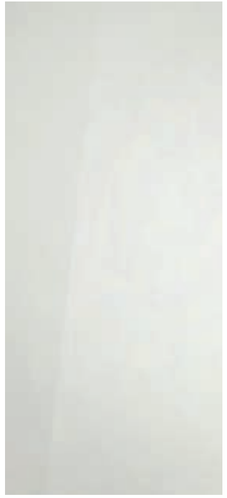
Intelligent Speed Limit Warning (ISLW).
Recognizes road speed signs and displays the speed limit and no-passing signs in real time in both the navigation system display and instrument cluster.

Blind Spot Collision-avoidance Assist (BCA).
Using two radar sensors in the lower rear bumper, the system warns you of traffic in the blind spot area. Should you set the turn indicator in such a situation, it will sound an acoustic alert and brake to avoid a collision.

Driver Attention Warning (DAW).
When a pattern of fatigue or distraction is identified, the system gets your attention with an alert and pop-up message suggesting a break.

N Line Exterior colours.

Personalize your new i30 N Line with a choice of 10 exterior colours. Three new exterior colours have been added to the range: Dark Knight, Silky Bronze and Sunset Red.

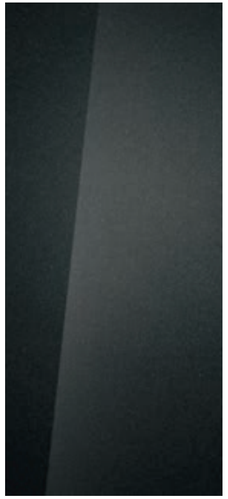


Polar White (Solid)

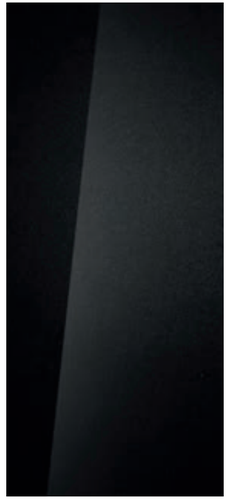
* Available until September

Platinum Silver (Metallic)

Shadow Grey (Solid)

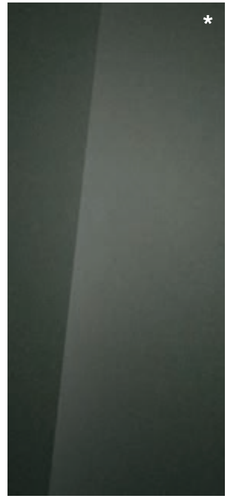


Dark Knight (Pearl)



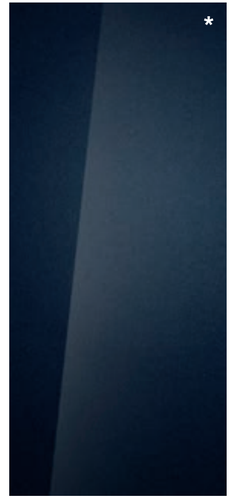
Phantom Black (Pearl)

Silky Bronze (Metallic)



* Available until September

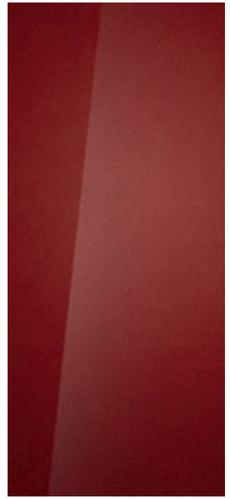
Olivine Grey (Metallic)



* Available until September

Stellar Blue (Pearl)

Engine Red (Solid)



Sunset Red (Pearl)

Certain exterior colours of the vehicle may not be available for purchase, or may become unavailable during certain periods of time. Please consult your dealer to obtain information on the available products.

N Line wheels.

The new i30 N Line is available with attention-grabbing 17" or 18" alloy wheels to further enhance the dynamic stance of this motorsport inspired trim line.

18" alloy wheel

17" alloy wheel
