HYUNDAI

# The all-new INSTER.

함께할래요?

# Are you in?

A small EV that makes a big statement, INSTER is redefining what you can expect from a car in this class. All in on roominess – and with a distinct look that doesn't shy away from a bold bit of drama – it's designed to be the perfect space for you.

Time to discover everything INSTER offers.
Are you in?

# Your next big thing is a small thing.

With INSTER – boring is out and your own style is in. Bringing the robust edge of SUV design to a compact electric city car, INSTER's stand out look will have heads turning everywhere you go.

Rugged wheel arches with their distinctive cladding exude sporty flair, while the Parametric Pixel LED combination lamps give the sleek rear end a futuristic edge. INSTER's muscular skid plates are highlighted by black circuit board-style bumper in the front and rear.

INSTER's personality shines through in its round LED daytime running lights and pixel-graphic turn signals.

# Cramped is out. More space is in.

Good things come in little packages. Thanks to its flat EV floor, super flexible rear seats and a high roof SUV silhouette, INSTER delivers an amazing amount of interior space for an A-segment city car.

You can slide the rear seats forwards and backwards by 16 cm – depending on if you need more boot space or more legroom for your rear passengers.
*Available in the Elegance Model only.

In the INSTER, all seats can be folded flat for increased flexibility in loading long or bulky items – or if you just want to lay back and chill.

# Big time connectivity in a small car.

INSTER provides the kind of seamless connectivity and advanced infotainment you expect and comes equipped with a 10.25” digital cluster and 10.25” centre touchscreen as standard – and yes of course, you can mirror your smartphone onto the big screen too. There are remote features available when used with your Bluelink App.

The high-end steering wheel with interactive pixel lights is the same as in the award-winning IONIQ 5.
It puts everything you need to operate the car’s systems right at your fingertips.

# Waiting is out. Fast-charging is in.

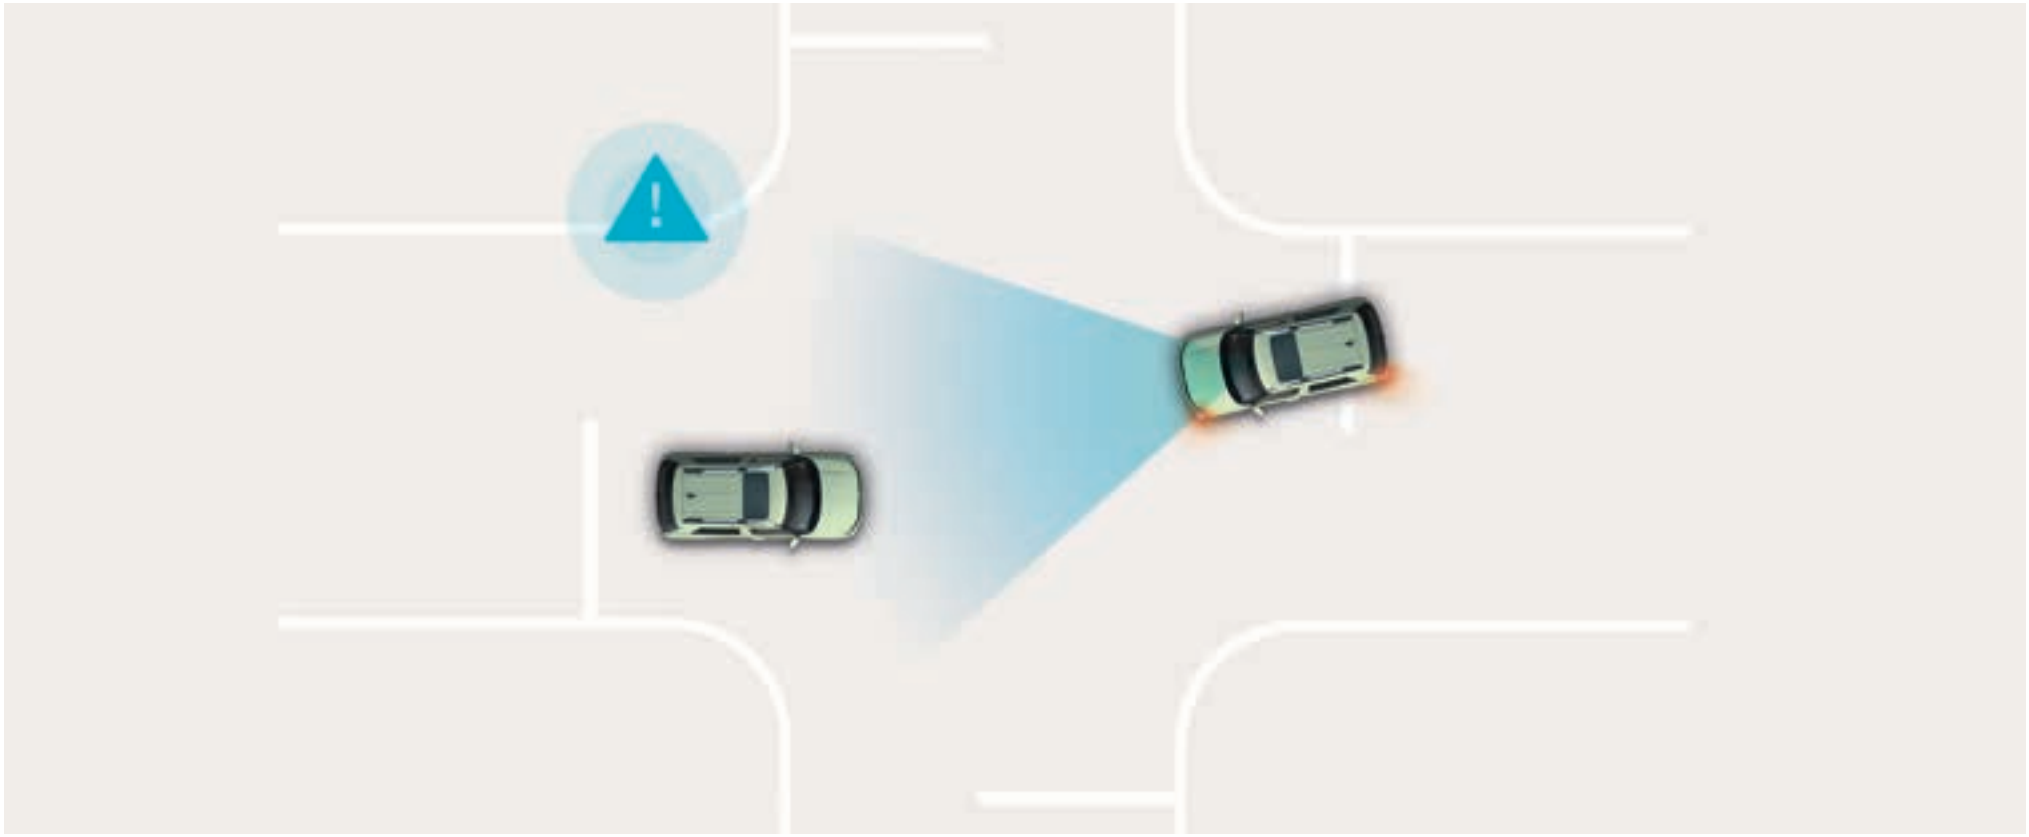
All in on charging faster and driving farther. INSTER has the capacity to charge from 10 to 80% in 30 minutes – so you'll be in and out of the charging station in the time it takes to grab a coffee.** And with two batteries to choose from: a 42 kWh and a 49 kWh version that delivers a segment-leading range of up to 360 km – you won't be stopping to charge that often anyway. ***

Fast and flexible: you can charge at home overnight at your own wallbox with the 11 kW on board charger (OBC) or top up at a DC charging station on the road or in the city.

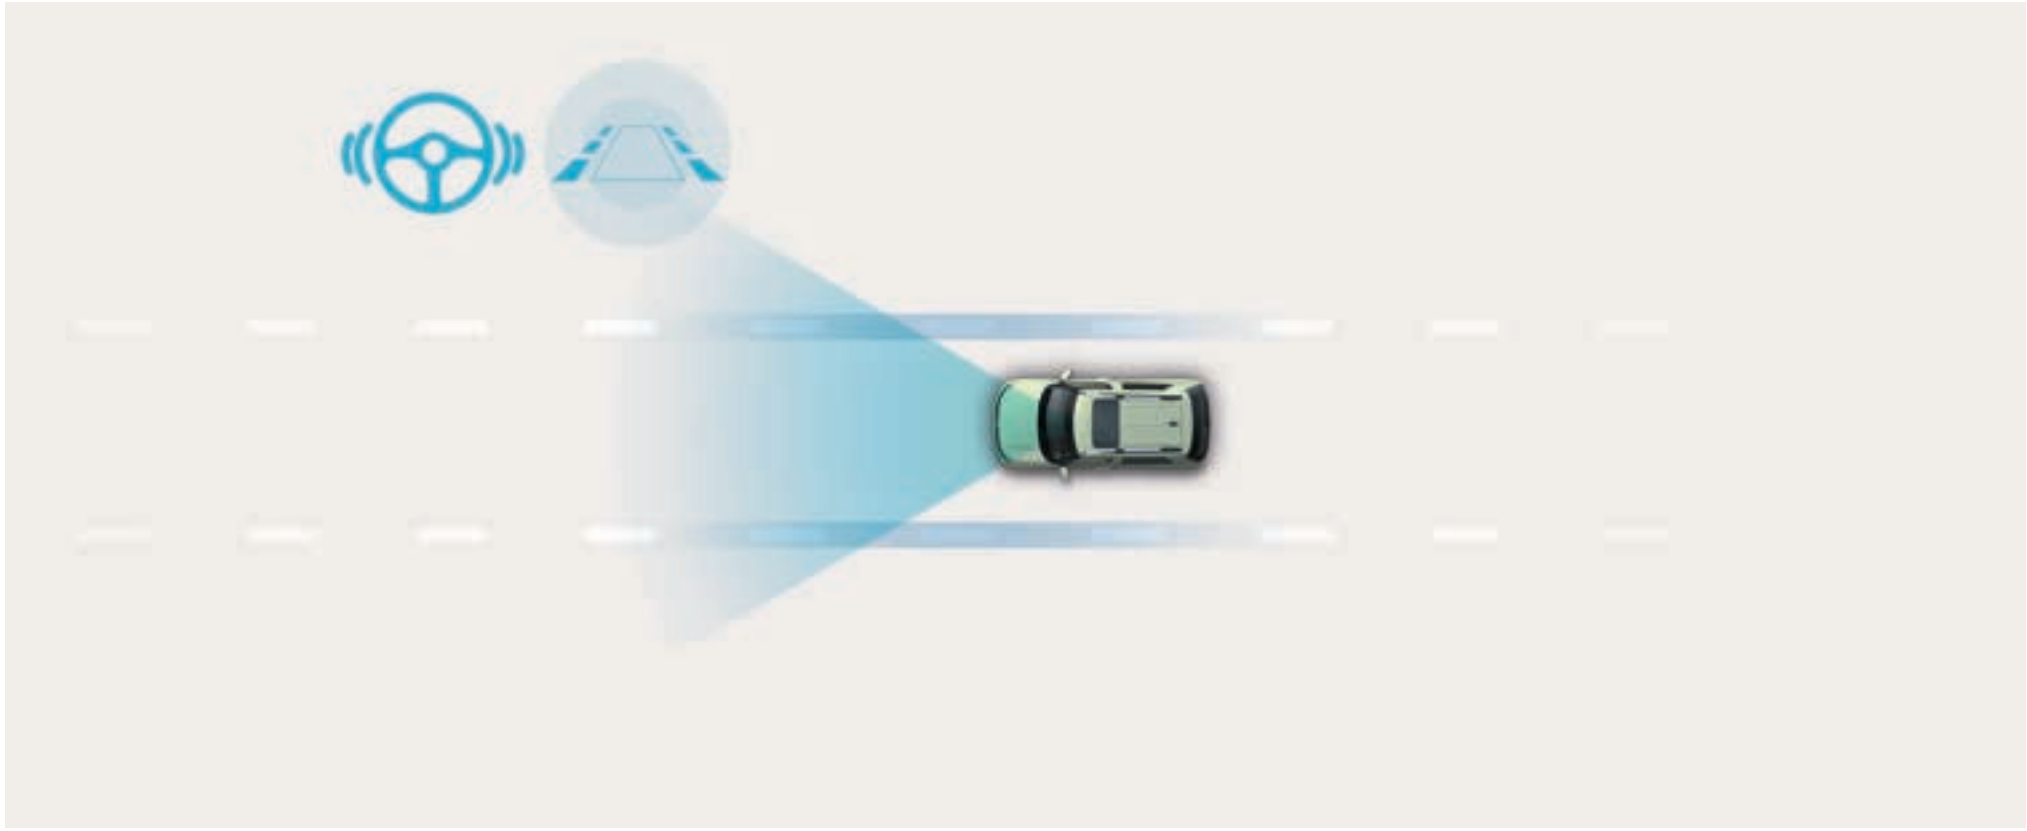
Hellooo road trip. Good bye range worries. With its segment-leading driving range of up to 360 km with the 49 kWh battery, INSTER is all-in on smarter mobility. ***

# **Hyundai** SmartSense

Alongside its segment-leading driving range and excellent charging performance, INSTER offers the most complete technology package in the segment with a multitude of advanced safety and driver assistance features.



**Forward Collision-avoidance Assist with Junction Turning (FCA-JT).**
The FCA system automatically brakes when it detects sudden braking by the car ahead or detects pedestrians or cyclists in your path. During cross intersection turning, it brakes if there is a risk of collision with an oncoming vehicle. ◊



**Lane Following Assist (LFA).** When activated, Lane Following Assist provides slight steering inputs to keep the vehicle centred in its lane at speeds between 0 and 140 kilometres per hour on highways and city streets. ◊

# Colour options and wheels.
